Ed/Cheryl,

The data below was developed using Google Driving Directions at approximately 9 AM this morning. We utilized the home of record data that employees are required (and have been reminded) to keep up to date. The data below is for the OSCs. It does not cover the non-OSC employees or the SEEs in the office. **Bottom line, while the average miles driven from home to office increases by 6.7 miles, the average OSC drive time in minutes decreases by 5.5 minutes (at least on a Thursday morning at approximately 9AM).**

Rick—Please have someone pull from LERIS for me the staff home addresses below first thing in the morning. Also, I need the address of the Grosse Ile office and the new Ann Arbor address. If you don't have the office addresses, please reach out to Marc or John H.
